I liked it. I enjoyed the art. I always enjoy collecting things and it was done in a way that it leads you to another part of the puzzle.. ITs like ghost and goblins meets splatterhouse (original) diffacult in the extreme.may not go ack to it without help. It's a great game, but it bugs out on the Vive Pro. Developers don't respond to support requests or posts on the community forum. Would not recommend anything from this dev, and definitely do not purchase this if you have a Vive Pro.. nico did nothing wrong

edit 2019: nico still did nothing wrong. I've been playing through the first two stories and wow, that's deep. Puzzle mechanics are nice, they give the game a good pace and the art direction is gorgeous. Give it a go if you like new experiences and story driven games.

Has 10 Levels of the same 3x3 Mosaic Minigame, but with different slightly lewd hentai pics.

6/9 - Definitely worth 50ct, would fap again.. First Impression: Really nice.

Fully voiced, and some parts even have fully animated cutscenes.

Not sure im entirely sold on the combat yet, but its lovely for a LWA fan.

FYI: The game doesn't have autosave, you need to unlock save points, you find the first after around 45 minutes (if you dont skip all cutscenes).

Update after some more Playtime:

Wow, the game has so much more than I thought. Party System, Items, Leveling, Skills...

Not sure when coop comes in, but given the way saving was unlocked rather late the game seems to open up gradually and give you more stuff.. Interesting story and atmosphere. Good spooks!. i strongly recommened you buy it :)

1. the ghost not even scary

2. u can finish the whole game i guess by 2 or 5 minutes like that

3. i like the way they copy the concept of who's your daddy but worst then that

4. this game probely u should play it after 5 min finish the game just go refund and u play a full version of the story for free :) buy one now :)

<https://youtu.be/VoIyGzFuTET0>. Great car chase action with a nice 70s-80s action movie atmosphere. Gets good updates regularly. Especially good for short or longer sessions on lunch or coffee break.. campaign is addictive -once campaign is over it's pay to win. Puppet Dhalsim. 10/10 would waste money on again.. Early Stages but can see it is going to be fun.....Cannot wait fro upgrades. This game is awesome. Highly addictive and very interesting concept and awesome graphic style. I think it could do with a simple tutorial at the start. show the people the controls and the goals. this it what stumped me at the beginning as i had no idea that i was meant to defeat a boss. or that i was meant to find him at all(on the first level i camped at the shop and bought pretty much everything from shooting the adjacent. until i found the boss) . I was also annoyed because i could not switch between guns that i had bought. but i think its suppose to be like that. Don't take that the wrong way. i love this game and its super fun. I give this a game a 9.7/10. It's super cheap and only 32MB.. terrible... just terrible
